April 1, 2020

New Year Address for America

Aquechewa Kinfolk, brother , sisters and relations of America.

I would like to thank everyone for taking the time to listen to the Foundation for Indigenous America of Anisazi Heritage , New Year ADDRESS.

I am Ambassador RaDine America

I hope and pray that our Kinfolk stay Life Enthused to overcome the challenge of this first transition back to the nature for reality of Life..

Wow, the 2020 New Year for America is coming in with a BANG!!!!

Change is moving forward- the transition back to Life Reality is in full effect.

The 2020 Address this year is about; Transition –Being Life Enthused

WHAT IS HAPPENNING, WHY THIS IS HAPPENING, AND WHAT ACTIONS NEED TO BE TAKEN NOW TO BE A PART OF THE FUTURE...

People have known for the last 10 years to prepare for the change.. Now it is happening.

The new Dawn is moving into full effect.

If we are to thrive now and in the future “ We will have to be “**Life Enthused**” live by the truth of life in reality.

Being Life Enthused means full of HAPPENESS FOR LIFE, HAPPENESS LIVES IN OUR HEARTS FOR BEING A PART OF THE NATURE OF LIFE.... It also means being in AT ONEMENT with our creation in Nature, our function and purpose for being alive...

BEING A LIFE ENTHUSED person is to be who you ARE! To have respect for what you are and value the Blood of life within you.

A Life Enthused person nurtures , maintains and supports the investments in the building of new Life structures for the continuation of the BLOOD OF LIFE to move forward.

People, who have an Allegiance to Life and has built up their life energy will be able to take action easily for the creation of a NEW future. The more Life Enthused you are the more power you receive from Life.

This is the time to create, build a new platform for life of America to Thrive..... with or without Mans living systems..

This is the time you should get out of stagnant behavior, release old prejudices, dysfunctional allegiances, attitudes, beliefs and addictions that rob your joy in living before it is too late..

This is the time to take action, to transcend from the prejudices, discriminations, and crimes used against your Life, Nature and humanity. Go another direction in order to let go and feel free.

This is the time for, Atonement for the past actions committed that caused harm to LIFE and others, and take actions to create new ways to create positive emotional life structures to grow into the future.

Now, Some people will see these times as restriction because Freedom from being a part of nature, and following its truth is over. Others will see the time has come for truth of reality and re-creation.

Regardless of our perception, in order to thrive into the future. All people will return to living with life Simply by being our function, doing our service to nature of life of America for the planet Earth

For over 20 years F.I.A.A.H. has sent the message We the people of America are an integral part of the nature with America, thru the blood we inherited from their Amerindian/ Negro mothers connection to the soil of America. We are a part of Earth. All people with the blood of America from females of America only, serve a function to Life in America. Our Amerindian ancestors knew some facts about Life.

1. We carry the Life blood of America, united we are the human "Power of Nature" for America
2. The platform in life for the function we serve is designated to us by our gender. You are either Feminine or Masculine.
3. The emotional force we call Life is the foundation to build upon. It is the foundation we live upon to thrive. It is the foundation for continuing the building of emotional structures as LIFE into the future.
4. Life is a process we live thru and is governed by principles of nature we live from.

The cultural foundation built by our ancestors over thousands of years to collectively thrive with our Life power is almost completely destroyed in America. Our time for hustling life is over, Amerindian people who support the re-building of our cultural foundation to support our nature with Earth will be able to live and thrive from our cultural foundation into the future.

Predictions for the year.

This year will be harder than last year for people to live outside their function thru the ego. Indigenous peoples of America unnatural ways of thinking will not have the cushion that give them the sense of security to have life and live life under their rules and ideals; from artificial man made systems that support living outside of the life support systems of nature.

The United States will not be able to keep supporting people to live outside of their natural life support structures and continue to cushion the consequences from living artificially outside the Emotional Structures for their function with the Nature of Life. These artificial support systems will quickly fade away, along with the artificial culture. The Hustle is over

The United States has over populated the section of America it inhabits, the consequence is the United States will be depopulated from all forms of plagues, natural disasters, and the like, until America is brought back to NATURES sustainable balance...

Today, most of the population for America or Negro people as a result of having a allegiance to Man and supporting the advancement of Death over Life in our homestead of America have become a weak, and emotionally dis functional collective. They no longer support the life of their nature. IN order for indigenous America to survive thru the transition we are in now. WE MUST RETURN TO LIVING TO BUILD THE EMOTIONAL STRUCTURES THAT SUPPORT LIFE. We must build new emotional life support structures or units of family.

Indigenous people of America who return to having an allegiance to Life, and let go of in -form-ation, replace it with facts of life will become Life Enthused. These people who stop living from hiding behind lies will change the way they think and be able to access a different reality that will open a way for them be able to take corrective action to get moving forward in the flow of Life's track. The track that holds your natures function .where you can make life connections that allow you to grow and expand like a tree and regain your ability to reach and accomplish your life's destiny .!!!

F.I.A.A.H represents Indigenous people of America who are Life Enthused like their ancestors....

- The Indigenous people of America lives at F.I.A.A.H. WE are the family of Life Enthused people. The question we all should be asking is, What do we mean by family.

Traditionally, family- represents the people who are directly related by blood of the parents. Family is the foundation for emotional life support structure all people are born into regardless of the condition of the emotional life support structure itself. People do not chose who they are born through or the circumstances they are born into.

Today most people of America are connected to seriously dysfunctional emotional relationship structures for family. Millions of the people of America are born in life into weak ,or without the support structure that holds the emotional support for building, nurturing and protecting new life. . Most were born into artificial emotional structures for family that trap people into emotional slavery. A form of slavery that pillages their life happiness from birth to death In other words they were born into a empty house, or a burning house , they were born into bankrupt emotional structures that did not build or support the natural purpose of family.

Family is also used as a word to represent people connected by emotion to the heart of the person Emotionally, family are the people who value your existence as part of the life blood of the same people, who have respect for your being, they are the people you can trust the well being of your life with. The people that will not cause you harm and have care , concern and compassion towards you accomplishing your life journey towards your destiny. . Family should be the people who are LIFE ENTHUSED about your life,, who can love you being a part of LIFE .Family are the people who LOVE YOU,. Anything less may be connected to you by blood ,but they are not your emotional family. , if the person does not free themselves from the bondage of the dysfunctional family, their life power will be pillaged and they live a life of despair.

It's time for Building Healthy Family- Life enthused emotional life support structures- with the same focus. Building life so they can continue to thrive with Life....

People who are related by blood to you, but don't have value of you as a member are your blood relatives, but not your family of LOVE. . People connected to people by blood but lack emotional connection are considered Relative. The larger collective are called kinfolk

We have to start creating healthy emotional relationships for family. Family can be with Anyone from our blood kinfolk tree, that is Life Enthused. We are all family...

Thru unity of focus in building Life thru its nature(how Life works), following the principles of nature that guide it - we will prevail and thrive. In this regard we have **the Book of Life and the Book of Principle.**

We as family must never forget to teach our children of the future- What LIFE as a force is ? and for them to keep happiness in living , they must always continue the force by servicing our gender purpose. We must always be in unity. They must never stop building new natural emotional structures for living life. They must never forget the importance for keeping the cultural foundation built for life viability of our people alive, in order to keep happiness and prosperity in the experience of living Life.

. We must never stop life from GROWING thru America- thru US..

Days of Living on Life instead of with Life are OVER-

— Letting the old parasitic paradigm - GOOOOOOOOOOO

People following the Parasitic ways of thinking- are JOY KILLERS, they are emotionally SICK. They are not Life Enthused, they live in KARMA, from lies, manipulations, artificial illusions and perceptions about reality. They are narcissistic , egotistical, self indulgent, selfish people , who have lost their enthusiasm for being a part of the living.

They are people who are not willing to serve their function embrace their emotional nature responsibilities, to nurture life, build emotionally vibrant and strong life structures. These people will not be able to thrive and will barely survive.

We are ready. . The F.I.A.A.H family thru unity of focus for building Life structure will prevail and thrive

Our Allegiance is to Life (find the **Allegiance to Life affirmations in the Indigenous People of the Earth book of Prayer**)

Goal of this year: Implementing Function-Being Family “ Building new life support Ships”

All indigenous people of America must return to doing our primary function. Males must implement Masculine function. Females must implement feminine function All abilities and talents are to be used to serve the whole life flow for staying life enthused and moving forward.

All males and females must get connected and on the same focus. Building Life structures (emotional and physical) Example; to make a working boat you need three major different parts. A body , and the sail. The paddle or rutter is the focus, the body is the male and the sail is the female. In Unity they can navigate with the ocean flow of Life.

Actions- Creating Safe Spaces for family.

Investing in Ourselves.

People who invest in Life structure- Life creates opportunity for them, if we want to thrive, there are no Excuses.

Money- Money should be used to invest in building Life support structures, everything we do must have a dual function. It can serve you and serve towards future sustainability

People who are always broke and never invest their energy to help create opportunity with life, will always be broke.

People who do not invest in creating life support. NO ONE IS OBLIGATED TO SHARE THE FRUITS OF THERE INVESTMENT from life with them...People who have nothing to invest, to build life support, have NOTHING to receive..... people who are living just to survive will never thrive...

People who have a piece of soil inheritance in there families, better keep it and build your family communities upon it. This is the time to unite combine your financial resources to build your life support structures. All able bodied have to invest service.

Investing in our Health

Health is determined by how enthused you are in reality with LIFE. All indigenous blooded people can regain their health using indigenous remedies. People who do not take responsibility for keeping their blood health , will lose their health and conventional doctors will not help them get it back. The virus is just one of many opportunities that will be

used to help get rid of parasitic people. The message from Nature is clear all over the world. People will have to take responsibility for what they need to keep their collective lives strong. In that regard FIAAH offers a variety of powerful indigenous ancestral remedies to use for keeping the blood of life strong...

Liquid Life is our ancestral foundation to build upon to regain and keep ones health strong..

Investing in building indigenous Economy

Well folks, we have a few products to share to help support an economic engine and help thousands of people. In order to build jobs for ourselves, we must spend our money buying products we need from each other, this is what creates an economy cycle. It is up to our people to support buying products that will help them. The economic engine is there, it is up to all of us to feed it. The online Amerindian Market Place@fiaah.org will open in May. People who have indigenous products can apply to be vendors

This year the separation of life enthused people from people of the ego is happening.

CONCLUSION

If you are alive and have always known in your heart, you wanted to change, well times have changed, this is your opportunity to do it. Start building emotional relationships that are LIFE ENTHUSED, let go of people who are not with you. Every one will find their own boat. People who do not serve their function are parasites, We will let go.

In this regard F.I.A.A.H. family members who want to return but owe for past years dues, and have not caused HARM. Can come back if they bring this year current before August 2020. Start with a clean slate. You can become a part of Yumwija again.

The new dawn has begun. It's a new year. Hope to see family soon

Ambassador RaDine America

Representative for Indigenous America (U.S. territories) F.I.A.A.H.

P.S. The Yumwija activities are available at www.fiaah.org, they will be unveiled on April 12, Let's Set the Record Straight Show.....
